MEMBER SPOTLIGHT FORM

Member Information

Name:	Cherlyn W. Tribble
Company:	Chartis Insurance
Work Address:	2550 Northwinds Parkway
Work City, State, Zip:	Alpharetta, GA 30009
Work Phone:	770-870-2399
Work Email:	cherlyn.tribble@chartisinsurance.com
Career Summary:	<p>I have a bachelor of science degree in environmental engineering from Purdue University in West Lafayette, Indiana and a MBA degree from Lake Forest Graduate School of Management in Lake Forest, Illinois. I have had an exciting and diverse career in the following areas: manufacturing, consulting, distribution, energy and insurance. I have worked at the following companies in a variety of geographical locations over the course of my career: Cummins Engine Company, Environmental Engineer – Emissions Development, Columbus, IN; Close Jensen and Miller – Environmental Engineer, Wethersfield, CT (I had the opportunity to work as part of the Connecticut Emergency Bridge Program after the Mianus River Bridge collapse); Johnson & Johnson – Manufacturing Supervisor, Wilmington, IL; Newark Electronics – Quality Assurance and Inventory Manager, Chicago, IL.</p> <p>In 1994, wanting to return to the environmental field, I began my career at Nicor Gas in Naperville, Illinois as an industrial sales engineer. I sold natural gas technology to customers in the metals industry, i.e. steel mills, forges, foundries, stamping plants, etc. The goal was to have customers use natural gas as the fuel source for air compressors, boilers, HVAC systems, heat treating ovens and co-generation installations. During that time, I sold a 10-year (turnkey owner/operator) multi-million dollar natural gas-fired steam boiler power plant project to a major locomotive manufacturer. I also won several awards for other major sales. In 1999, I moved into the position of Senior Environmental Engineer in the corporate Environmental Services Department. While in that position, I provided leadership for the \$42 million natural gas mercury regulator cleanup project and served as the primary company contact for State and Federal RCRA inspections for the company’s 42 facilities. I also initiated a company-wide recycling</p>

	<p>program. In 2007, I relocated to Atlanta, Georgia with my husband for a wonderful career opportunity for him. I am currently employed at Chartis Insurance in Alpharetta, Georgia as an Environmental Consultant.</p> <p>Professional Certification – Chartered Industrial Gas Consultant</p>
GA-AHMP Involvement:	<p>I have been a member of the GA-AHMP for almost two years. I recently signed up for the Community Outreach Committee. I appreciate the continuing education presentations that the GA-AHMP provides at its meetings. Participation in this organization also provides tremendous opportunities for networking, particularly since I am still relatively new to Georgia.</p>
Hobbies/Other Interests:	<p>I am a classically trained pianist, who also enjoys playing the organ and singing. My other interests include: reading, mentoring youth, prison ministry and helping church congregations consider the environmental aspects of doing ministry. I have been happily married for almost 27 years to Jeff, a mechanical engineer who chose to become a pastor and seminary professor a number of years ago. We have one son, Jeffery, Jr. who has just completed his second year of law school at George Washington University School of Law in Washington, DC.</p>
